

NAWGJ Tech Tips

More ways to become a tech nerd

MN-NAWGJ.ORG

It's More than just Riley Dog

Hands down, the most popular part of our website is Riley Dog (AKA, where you find meet information and event panels). But did you know there are more things you can do with the website? Here are just a few things.

1

EVENTS

Not only meets, but events like clinics, testing, meetings and CPE chances. All of these can be copied to your own calendar

2

TRAIN YOUR EYE

Videos of new skills, "What was that?!" skills and "Would you give that credit?"

3

BECOME A JUDGE

When people ask you for information to become a judge, send them here

Follow us on Facebook!

Not only photos & fun, but useful links too!

Instagram

The lighter side of MN-NAWGJ, and educational videos!

Twitter Feed

For photos, surveys & the punchy moments during meets!

Facebook, More than Just Social Media

Sure Facebook is where we post many of our judging photos, but also lots of useful information and links. Examples of previous non-photo posts include links to updated pages for your Codes, links to sales at the uniform company, notifications for electronic code updates, practice tests and so much more than just pictures. Although, we do post the fun moments too!

“I didn’t know I could do that!”

You can import lots of information from Facebook, including calendar information. When you see an event you want to attend, you can import the event directly to your device’s calendar, you can look up the

directions to get there, find out any extra details, even share the event with others who may not understand why your weekends are always booked 6 months out of the year.

Best of all, if you don’t want to miss any of the information updates, simply click on the “Following” button and you can customize what updates you want to receive and how often.

Search for us under **Minnesota NAWGJ**; you’ll thank me for it later.

COMING SOON - EDUCATIONAL VIDEOS

In collaboration with our wonderful educational team, we are working on creating short practice videos to help you train your eye and mind, to catch all those details at once. We are practicing with a few formats, but very soon, the videos will be posted privately on our Instagram page. Due to the fact that most of the demonstrators are minors, we want to respect their rights and will make these private videos. Please do not share them with others without written consent.

Look for us on Instagram under **mn_nawgj** (the photos and humor part) and **mnnawgjvideos** for the practice videos.
